

Katedra fyzickej geografie a geoekológie PriF UK v Bratislave

dovoľuje si pozvať Vás na prednášku
popredného predstaviteľa ruskej geomorfometrickej školy

Dr. Igor V. Florinsky

(Institute of Mathematical Problems of Biology, the Keldysh Institute of Applied Mathematics,
Russian Academy of Sciences, Pushchino, Russia)

A web-system of virtual morphometric globes

piatok 28. apríla 2017 o 14:30 h
zasadačka katedry (B1-444)

<http://iflorinsky.psn.ru/>

Research interests

- Digital terrain modelling and geomorphometry
- Interrelationships between topography, soils, and tectonics
- Influence of geological environment on humans, society, and civilization
