

3rd Circular with Programme

Carpatho-Balkan Conference on Geomorphology

held

**on the occasion of the 40th anniversary of foundation
of the Carpatho-Balkan Geomorphological Commission**

in September 8 – 12, 2003

**at the Faculty of Natural Sciences of Comenius University in
Bratislava, Slovakia**

organized by

**Comenius University in Bratislava,
Slovak Academy of Sciences, Institute of Geography, Bratislava,
Association of Slovak Geomorphologists, Bratislava
and
Carpatho-Balkan Geomorphological Commission**

in collaboration with

**Austrian Institute of the East and Southeast European Studies,
Vienna – Bratislava**

BACKGROUND

The development and current functioning of the individual geomorphosystems in the Carpatho-Balkan region can be better understood in the context of the origin and functioning of the Carpatho-Balkan's system as a whole. Countries in this region have got a lot in common in terms of historical linkages, which is also reflected in definition of research aims in geomorphology, similar methodological approaches and similar problems connected with realization of research. There exists therefore, a great potential for regional collaboration leaning on information exchange, mutual assistance or creation of joint supranational projects. Intensification of regional geomorphological collaboration can be profitable for all participants in Europe now under integrating process. The generation of founders of the modern geomorphological research which realized the significance of regional collaboration founded the **Carpatho-Balkan Geomorphological Commission (CBGC)** forty years ago.

The intention of the **Carpatho-Balkan Conference on Geomorphology** is meant not only as a reminder of this important anniversary. It should serve as a platform for revival of the CBGC's activity. The conference brings a representative selection of themes studied by the individual national geomorphological schools, whether they concern morphogenesis and morphochronology, morphodynamics or applied geomorphology.

The **Plenary Session of the CBGC**, part of planned program of the event, will provide space for discussion of organizational structure of the CBGC and possible forms of particular collaboration (for instance, generation of regional theory of the development of georelief of the Carpatho-Balkan region on the basis of new geodynamic models, single geomorphological regionalisation, unified networking of stationary and semi-stationary research in terms of conception and information, creation and testing of methodology of geomorphological mapping, assessment of geomorphological hazards or construction of shared geomorphologically oriented GIS's, co-operation in education, etc.). We trust that the meeting of the representative participation of geomorphologists from all parts of the Carpatho-Balkan region will reach the above-outlined aims.

INTERNATIONAL HONORARY COMMITTEE

Prof. Lucian Badea (Romania)	Prof. Gheorghe Niculescu (Romania)
Prof. Tadeáš Czudek (Czech Republic)	† Prof. Márton Pécsi (Hungary)
Prof. Jozef Jakál (Slovakia)	Prof. Zoltán Pinczés (Hungary)
Prof. Jaromír Demek (Czech Republic)	Prof. Leszek Starkel (Poland)
Prof. Tadeusz Gerlach (Poland)	Prof. Otakar Stehlík (Czech Republic)
Prof. Kazimierz Klimek (Poland)	Prof. Ján Urbánek (Slovakia)
Prof. Jozef Kvitkovič (Slovakia)	Prof. Tadeusz Ziętara (Poland)
Prof. Dmitriy A. Lilienberg (Russia)	

LOCAL ORGANIZING COMMITTEE

Chairman:	Miloš Stankoviansky (Comenius University in Bratislava)
Vice-chairman:	Ján Urbánek (Slovak Academy of Sciences, Institute of Geography)
Secretary:	Ján Lacika (Slovak Academy of Sciences, Institute of Geography)
Secretariat:	Zora Machová (Comenius University in Bratislava)
Members:	Milan Trizna (Comenius University in Bratislava)
	Jozef Minár (Comenius University in Bratislava)
	Gabriela Strelcová (Comenius University in Bratislava)
	Juraj Maglay (Geological Survey of Slovak Republic)

CONFERENCE SCHEDULE

September 8:	Arrival, Registration, Opening ceremony, Welcome party;
September 9:	Registration, Paper sessions, Festive dinner;
September 10:	Paper and poster sessions, Plenary session of the CBGC;
September 11:	Field excursion. Overnight in Banská Štiavnica (Štiavnické vrchy Mts.);
September 12:	Field excursion. End of excursion in Bratislava.

General Information and Guidelines

CONFERENCE VENUE AND HOW TO GET THERE

Conference will be held at the pavilion of the Faculty of Natural Sciences, Comenius University in Bratislava ("Prírodovedecká fakulta Univerzity Komenského v Bratislave", see enclosed photos), part of the University campus situated in the western part of the city just above the Danube River (see enclosed maps No. 1, 2, 3). The campus is accessible from the city centre within 10 minutes by tram (No. 1, 4, 5, 9, 12) and by bus (No. 29, 32).

The tram No. 1 and bus No. 32 depart from the main railway station ("Bratislava, Hlavná stanica"), the trip from the railway station lasts approx. 20 min. You can buy tickets (valid both for tram and bus) at the railway station either in a special kiosk or at the slot machines. The current price of one ticket is 16 SKK (for trip lasting 10 – 30 min). Remember that the name of both tram and bus stop you have to get off at is "Botanická záhrada" (Botanic Garden). It is the 13th stop of tram, and the 10th stop of bus in direction from the main railway station.

Participants coming by car approaching the University campus along motorways D1 or D2 follow the road sign reading "Mlynská dolina" (see enclosed map No. 3), please, and finally also hardly noticeable tablet reading „FEI STU“ (the latter is situated close before turning off the motorway D2 obliquely upslope to the Conference venue). There is a parking lot just at the entrance to the pavilion, but not a guarded one.

REGISTRATION

The registration desk will be set up at the pavilion of the Faculty of Natural Sciences (see the information at the entrance). The registration desk is open on Monday (September 8) afternoon and Tuesday (September 9) morning (see programme). Participants coming earlier can be registered directly at the Department of Physical Geography and Geoecology; contact us from the pavilion doorkeeper's room by phone, please. All participants are expected to pay for accommodation and in case of their interest also for meal tickets and the festive dinner at registration. Cash both in SKK and in EUR is admitted.

ACCOMMODATION

Accommodation during the Conference will be provided in student hostels situated in different places. It is the result of a relatively high number of registered participants. The current prices per one person per one night range from 250 SKK (ca 6 EUR) to 650 SKK (ca 16 EUR). Rooms are mostly single and double. Be prepared that parking possibilities at student hostels are limited.

MEALS AND REFRESHMENT

Breakfast, lunch and dinner will be provided in the dining room of the Student Hostel Družba, the participants will be offered the chance to buy meal tickets at registration. Full board per one person per one day should not exceed 280 SKK (ca 7 EUR). The price for the festive dinner is 500 SKK (approx. 12-13 EUR). Coffee and tea will be served free of charge during the breaks of oral sessions.

LANGUAGE

The Conference will be conducted in English. No translation will be provided.

PAPER/POSTER PRESENTATION

The time allocated for one **paper presentation** is 15 minutes, including possible short discussion, while the available discussion to individual papers will be common for the particular morning's and afternoon's blocks of papers. For paper presenters the overhead projector, slide projector and data projector (with installed MS Office 2000, including MS PowerPoint) are available in the Lecture Hall. The CD-R or 3.5" diskette drives are available. For **posters presenters** the poster panels with dimensions 94 cm (vertically) and 194 cm (horizontally) are available. As we need to use the poster area, two poster presenters will share one panel.

CONFERENCE AND POST- CONFERENCE PUBLICATIONS

Book of Abstracts of Papers/Posters and Excursion Guide-Book, as the Conference publications, will be available at registration.

Organizers signed agreements with four scientific journals, namely *Studia Geomorphologica Carpatho-Balcanica* (published in Kraków), *Geografický časopis*, *Geomorphologia Slovaca*, *Acta Facultatis Rerum Naturalium Universitatis Comenianae – seria Geographica* (all three published in Bratislava) to publish full texts of papers/posters after proper reviewing procedures after the Conference. The authors who are interested in publishing their contributions are expected to submit full manuscripts of their papers or posters at the registration. Distribution of individual contributions among mentioned journals will be based on their character.

General guidelines for the authors are following: maximum extent of the article up to 20 pages including attachments (Arial or Times New Roman font, 12 points); manuscript in English with the full name of author(s), affiliation, full postal address (including e-mail), abstract in English (up to 100 words), key words (3 – 5), double spaced in A4 format; on separate sheets tables, illustrations, captions to illustrations. We need **three hard copies of the text** and one **3.5'' diskette or CD-R in MS Word**. Additional details (for example concerning references etc.) will be announced to authors after reviewing procedure directly from the chief editors of particular journals.

DEADLINE

Submission of full text of both papers and posters
(in MS Word on diskette and three hard copies):

September 8, 2003

SOCIAL EVENTS

Monday	September 8	19.00	Welcome Party	Free of charge
Tuesday	September 9	19.00	Festive Dinner	Payment at registration

CONFERENCE OFFICE

The Conference Office will consist of:

- Registration Desk
- Information Desk

INTERNET ADDRESS

Information is available also on the website: <http://www.fns.uniba.sk/~kfg/cbqc/cbqc.html>.

Carpatho-Balkan Conference on Geomorphology
Bratislava, Slovakia, September 8 – 12, 2003

CONFERENCE PROGRAMME

Monday September 8, 2003

Arrival of participants at the pavilion of the Faculty of Natural Sciences, Comenius University (CU) in Bratislava, Mlynská dolina Street (see enclosed city plans).

- 13.00 – 18.00 *Registration (Faculty of Natural Sciences, CU), Accommodation*
18.00 *Opening Ceremony (Faculty of Natural Sciences, CU)*
19.00 *Welcome Party (Faculty of Natural Sciences, CU)*

Note: If you will come earlier or later than in the official registration time, it is possible to arrange your registration directly at the Department of Physical Geography and Geoecology (call from the pavilion doorkeeper's room).

Tuesday September 9, 2003

- 7.00 – 9.00 *Registration (Faculty of Natural Sciences, CU), Accommodation*

Morning Paper Session 1 (Introductory Papers)

- 8.30 – 8.45 LÓCZY, D. (Pécs, Hungary)
Activities of the International Association of Geomorphologists (IAG)
- 8.45 – 9.00 URBÁNEK, J., STANKOVIANSKY, M., JAKÁL, J. (Bratislava, Slovakia)
Changes in the Slovak Geomorphology
- 9.00 – 9.15 STARKEL, L. (Kraków, Poland)
Are the Planation Surfaces Still Existing in the Flysch Carpathians?
- 9.15 – 9.30 KVITKOVIČ, J., VANKO, J. (Bratislava, Slovakia)
Present Geodynamics of Neotectonic Blocks in Slovakia
- 9.30 – 9.45 ZIĘTARA, T. (Kraków, Poland)
Transformation of Cryoplanation Terraces in the Holocene in the Flysch Carpathians
- 9.45 – 10.00 BALTEANU, D. (Bucharest, Romania)
Climate Change and Landslides in the Romanian Carpathians
- 10.00 – 10.15 DEMEK, J. (Kunštát na Moravě, Czech Republic)
Contemporary Geomorphological Processes in the Southern Foothills of Central Moravian Carpathians, Czech Republic
- 10.15 – 10.30 LILIENBERG, D. A. (Moscow, Russia), MATSAPULIN, V. U., TULYSHEVA, Ye. V. (Makhachkala, Russia)
Neotectonics and Morphostructures of Daghestan, the Southeastern Caucasus
- 10.30 – 11.00 *Coffee Break*

Morning Paper Session 2

- 11.00 – 11.15 ČINČURA, J. (Bratislava, Slovakia)
Paleogeomorphology of the Alpine-Carpathian Junction
- 11.15 – 11.30 MINÁR, J., BIZUBOVÁ, M., GALLAY, M. (Bratislava, Slovakia)
General and Specific in the Denudational Chronology of the West Carpathians

- 11.30 – 11.45 BÍL, M. (Olomouc, Czech Republic), HROUDA, F. (Praha, Czech Republic),
FRANCŮ, KREJČÍ, O., PŘICHYSTAL, A. (Brno, Czech Republic)
Approximation of Missing Eroded Sediments in the Bílé Karpaty Unit (Magura
Group of the Nappes, Outer West Carpathians)
- 11.45 – 12.00 ZUCHIEWICZ, W. (Kraków, Poland)
Neotectonics of the Outer West Carpathians from Geomorphological
Perspective
- 12.00 – 12.30 *Discussion on Topics of Morning Sessions*
- 12.30 – 14.00 *Lunch Break*

Afternoon Paper Session 1

- 14.00 – 14.15 KOŠŤÁLIK, J. (Košice, Slovakia)
Aeolian Sediments, their Genesis and Significance at the Landforms Modelling
in the West Carpathians
- 14.15 – 14.30 FÁBIÁN, Sz. Á., KOVÁCS, J., NAGYVÁRADI, L., VARGA, G. (Pécs, Hungary)
Was There Desert Climate in the Carpathian Basin, or Not?
- 14.30 – 14.45 MARGIELEWSKI, W. (Kraków, Poland)
Minerogenic Horizons in Landslide's Peat Bogs (Polish Flysch Carpathians)
and their Palaeoclimatic Implications in the Late Glacial and the Holocene
- 14.45 – 15.00 HACZEWSKI, G., KUKULAK, J. (Kraków, Poland)
Early Holocene Landslide-Dammed Lake in the Bieszczady Mountains (Polish
East Carpathians) and Its Evolution
- 15.00 – 15.15 KOTARBA, A. (Kraków, Poland)
Extreme Geomorphic Events in the High Tatra Mountains during the Little Ice
Age
- 15.15 – 15.30 RAČZKOWSKA, Z. (Kraków, Poland)
Recent Periglacial Landforms of the Tatra Mts.
- 15.30 – 15.45 KŘÍŽEK, M. (Praha, Czech Republic)
The Pleistocene and the Holocene Formation of Rocks in the Rusavská
hornatina Mts. (in the Outer Western /Flysch/ Carpathians in Moravia, Czech
Republic)
- 15.45 – 16.15 *Coffee Break*

Afternoon Paper Session 2

- 16.15 – 16.30 OWCZAREK, P. (Sosnowiec, Poland)
The Influence of Hillslope Sediment Delivery on the Morphology of Gravel Bed
Rivers, Polish Flysch Carpathians
- 16.30 – 16.45 KOŚCIELNIAK, J. (Kraków, Poland)
Influence of River Training on Functioning of the Biały Dunajec River Channel
System
- 16.45 – 17.00 KRZEMIEŃ, K., ZAWIEJSKA, J. (Kraków, Poland)
Human Impact on the Dynamics of the Upper Dunajec River Channel: A Case
Study
- 17.00 – 17.15 WYŻGA, B., LACH, J. (Kraków, Poland)
Present-Day Downcutting of Carpathian Tributaries to the Vistula, Southern
Poland: The Effect of Increased Transporting Ability of the Rivers and
Decreasing Sediment Supply
- 17.15 – 17.30 PIŠŮT, P., KUBALOVÁ, S. (Bratislava, Slovakia), HAJNALOVÁ, E. (Nitra,
Slovakia), SLAMKOVÁ, M. (Bratislava, Slovakia)
Study of the Danube River Palaeochannel, Slovakia
- 17.30 – 17.45 LEHOTSKÝ, M., GREŠKOVÁ, A. (Bratislava, Slovakia)

	Response of the Danube River Channel and Floodplain to Flood Events in 2002
17.45 – 18.15	<i>Discussion on Topics of Afternoon Sessions</i>
19.00	<i>Conference Festive Dinner</i>

Wednesday September 10, 2003

Morning Paper Session 1

8.30 – 8.45	LACIKA, J. (Bratislava, Slovakia) Neotectonic Evolution of West Carpathian Basin System
8.45 – 9.00	LEHOTSKÝ, M. (Bratislava, Slovakia) River Pattern and River Ecomorphology (Case Study Hybica River)
9.00 – 9.15	HOCHMUTH, Z. (Košice, Slovakia) Morphological Types of Caves of the Slovak Karst
9.15 – 9.30	BAROŇ, I. (Brno, Czech Republic) Speleogenesis along Sub-Vertical Joints: A Model of Karst Shafts Development in the Dolný vrch Plateau (the Slovak Karst)
9.30 – 9.45	MARGIELEWSKI, W., URBAN, J. (Kraków, Poland) Direction and Nature of Joints Controlling Development of Deep Seated Mass Movements: A Case Study of Diabla Dziura Cave (Polish Flysch Carpathians)
9.45 – 10.00	ZAŤKO, M. (Bratislava, Slovakia) Influence of Georelief on Sources of Superficial and Underground Waters in Slovakia
10.00 – 10.30	<i>Coffee Break</i>

10.30 – 11.30 **Poster Session**

	ALEXANDROWICZ, Z., MARGIELEWSKI, W. (Kraków, Poland) Natural Environmental Pattern of Carpathian Landslide Areas
	ALIZADE, E. K. (Baku, Azerbaijan) Geodynamic Features of Formation of Morphostructures of the Minor Caucasus (on the Basis of SP Materials)
	ANGELOVA, D. (Sofia, Bulgaria) The Varna Paleoseismic Dislocation (Bulgaria) and Geoecological Problems
	ANGELOVA, D. (Sofia, Bulgaria) Genesis, Dynamic Processes and Evolution of the Sofia Basin (Bulgaria)
	ARMAŞ, I., DAMIAN, R., ŞANDRIC, I. (Bucharest, Romania) Landslide Susceptibility Mapping Using the Bayesian Probability Model (the Subcarpathian Prahova Valley, Romania)
	BAJGIER-KOWALSKA, M. (Kraków, Poland) The Application of Lichenometry in Dating of the Landslide Slopes in the Flysch Carpathians
	BAJGIER-KOWALSKA, M., ZIĘTARA, T. (Kraków, Poland) The Succession of Landslide Movements in the Last Five Years in the Flysch Carpathians
	BARKA, I. (Bratislava, Slovakia) Identification of Snow Avalanche Trigger Areas and Avalanche Ecosystems Using GIS
	BAROŇ, I., KREJČÍ, O., HUBATKA, F. (Brno, Czech Republic) Slope-Failure Features on Deep-Seated Landslides in Czech Flysch Carpathians (A Case Study: Vaculov-Sedlo)
	BELFOUL, M. A., BOUZID, S., FAIK, F. (Agadir, Morocco), ANGELOVA, D.

- (Sofia, Bulgaria)
Natural and Anthropogenic Factors Controlling the Relief Change and the Degradation of the Environment in the SW High Atlas (Morocco)
- BENOVÁ, A. (Bratislava, Slovakia)
Geomorphometry and Geomorphology of the Vápeničný potok Brook Basin in the Malé Karpaty Mts.
- BUDAGOV, B. A., ALIZADE E. K., TARIKHASER S. A. (Baku, Azerbaijan)
Problems of Research of the Ecologic-Geomorphological Hazards in Mountain Constructions within the Azerbaijan
- CHERKASHIN, V. I., MATSAPULIN, V. U., TULYSHEVA, E. V. (Makhachkala, Russia)
Some Peculiarities of Forming of Fluvial Apron Plains in the Eastern Caucasus in the Neotectonic Stage
- ČINČURA, J. (Bratislava, Slovakia)
Cretaceous Karst Phenomena of the Central Western Carpathians
- ČINČURA, J., PUŠKELOVÁ, Ľ. (Bratislava, Slovakia)
Paleogeography of the Cretaceous Karst in the Light of Geochemical Methods
- DULIAS, R. (Sosnowiec, Poland)
Aeolisation of Sediments in the Oświęcim Basin (Carpathian Foredeep)
- FÁBIÁN, Sz. Á. (Pécs, Hungary)
Geomorphological Hazards of the Lower Reaches of the Danube River in Hungary
- FALŤAN, V. (Bratislava, Slovakia)
Importance of Landforms for the Construction of Potential Natural Vegetation Maps
- GRECU, F., PĂTRU, I., COMĂNESCU, L. (Bucharest, Romania)
Bucegi Massif. Role of Slopes in Relief Modelling and Human Activities Dynamics
- HRADECKÝ, J., PÁNEK, T. (Ostrava, Czech Republic)
Slope Processes of the Czech Part of the Silesian Beskydy Mts. – Occurrence, Preconditions and Dating
- IELENICZ, M., VERGA, M.-I. (Bucharest, Romania)
Lithologic Influence on the Present-Day Morphodynamics in the Bicaz River Basin
- ILIES, D. C., CHIRIAC, C. (Oradea, Romania)
Some Considerations about the GIS Using to Decipher the Western Romanian Plain Evolution
- JAKÁL, J. (Bratislava, Slovakia)
Karst Geomorphology of Slovakia – Typology
- KIRCHNER, K., ROŠTÍNSKÝ, P., KREJČÍ, O. (Brno, Czech Republic)
Geomorphological Aspects of Slope Deformations in Outer Western Carpathians (Eastern Moravia)
- KLIMEŠ, J. (Praha, Czech Republic)
Use of the GIS Technology for Slope Stability Modelling at a Regional Scale
- KOLÉNY, M. (Bratislava, Slovakia)
Relationships between Rocks, Relief and Soils in the Slovak Carpathians
- KOVÁCS, J. (Pécs, Hungary)
Terrestrial Red Clays: A Palaeoenvironmental and Geomorphological Approach
- KŘÍŽEK, M., ENGEL, Z., TREML, V. (Praha, Czech Republic)
Recent Periglacial Phenomena above the Alpine Timberline in the High Sudetes
- LACIKA, J., URBÁNEK, J. (Bratislava, Slovakia)

Morphostructures of Slovakia – Stage of Research

ŁANCZONT, M. (Lublin, Poland), MADEYSKA, T. (Warszawa, Poland)
Landscape and Environment of the Eastern Carpathian Foreland in the
Palaeolithic Man Activity

LEHOTSKÝ, M. (Bratislava, Slovakia)
Response of Microrelief to Present-Day Erosion-Accumulation Processes

MALARZ, R., SZAFARCZYK, A. (Kraków, Poland)
Downstream Reduction of Gravel Size in the Carpathian Rivers

MENTLÍK, P. (Plzeň, Czech Republic)
Use of Some Methods of Morphostructural Analysis in GIS

NOVOTNÝ, J. (Bratislava, Slovakia)
Influence of Neotectonics on the Relief Development of the Pieniny Klippen Belt
(Example from the Kysucká vrchovina Upland)

PILCH, K. (Kraków, Poland)
Application of Taxonomic Methods in River Channel Typology

PROSOVÁ, O. (Brno, Czech Republic)
Influence of Relief on Runoff Conditions in Relation to Flash Floods (Case
Study: the Czech Highlands and the Moravian Carpathians)

RADOSZ, J. (Sosnowiec, Poland)
Differentiation in Soil Degradation Intensity in Southern Part of Poland

SERBAN, M. (Bucharest, Romania), BIRD, G., MACKLIN, M., BREWER, P.
(Aberystwyth, UK), BALTEANU, D., DRIGA, B. (Bucharest, Romania)
Romania – The Impact of Mining Activities on the Mures – Tisa River Basin and
Transboundary River Pollution

SIPOS, Gy., KISS, T. (Szeged, Hungary)
Evaluation of Geomorphological Stability on the Lower Reaches of the Maros
River, Hungary

SŁOWIAK, P., WARCHOLIK, W. (Kraków, Poland)
Human Impact on Floods and their Effects; Case Studies from the Polish Flysch
Carpathians

TANISLAV, D. (Targoviste, Romania)
Geomorphological Hazards in the Eastern Part of the Getic Piedmont
(Romania)

VARGA, G. (Pécs, Hungary)
Late Neogene Forms and Sediments in the Carpathian Basin

WARCHOLIK, W., SŁOWIAK, P. (Kraków, Poland)
River Channel Response to 20th Century Land Use Changes in the Western
Part of the Beskid Niski Mountains – A Comparison of Catchments in Slovakia
and Poland

ZAWIEJSKA, J., WYŻGA, B. (Kraków, Poland)
Storage of Large Woody Debris in a Wide Mountain River: Case Study of the
Czarny Dunajec, Polish Carpathians

Morning Paper Session 2

- | | |
|---------------|--|
| 11.30 – 11.45 | MATEI, E. (Bucharest, Romania)
Human Impact upon Mountain Environment in Romanian Carpathians |
| 11.45 – 12.00 | KISS, T., SIPOS, Gy. (Szeged, Hungary)
Application of Morphometric Measurement in the Selection of Human
Influenced Fixed Sand Dunes, South Nyírség Region, Hungary |
| 12.00 – 12.15 | ARMAŞ, I., DAMIAN, R. (Bucharest, Romania)
Urban/Rural Differences in Landsliding Vulnerability and Risk Perception: Town
of Breaza – Pietriceaua Village/Subcarpathian Basin of the Prahova River |

- 12.15 – 12.30 MIHAI, B. A., SANDRIC, I. (Bucharest, Romania)
Relief Accessibility Mapping and Analysis in Middle Mountain Areas
- 12.30 – 13.00 *Discussion on Topics of Morning Sessions*
- 13.00 – 14.30 *Lunch Break*

Afternoon Paper Session

- 14.30 – 14.45 ROŠTÍNSKÝ, P. (Brno, Czech Republic)
Geomorphology of the Diendorf Fault Area on the SE Margin of the Bohemian Massif in SW Moravia and N Austria
- 14.45 – 15.00 KOMAC, B., GABROVEC, M. (Ljubljana, Slovenia)
Some Characteristics of Dolomite Relief in Slovenia
- 15.00 – 15.15 RAVBAR, N., ZORN, M. (Ljubljana, Slovenia)
The Characteristics of Dolines of the Kras Plateau
- 15.15 – 15.30 LILIENBERG, D. A. (Moskva, Russia)
Contemporary Endogeodynamics of the Great Caucasus and a Catastrophic Avalanche of the Kolka Glacier
- 15.30 – 15.45 ENGEL, Z. (Praha, Czech Republic)
Development of the Pleistocene Glaciations in the Czech Part of the Krkonoše (Giant) Mts.
- 15.45 – 16.00 VILÍMEK, V., STEMBERK, J. (Praha, Czech Republic)
Monitoring Net for Present Tectonic Movements in the Gulf of Corinth
- 16.00 – 16.15 KĘDZIA, S., RAĆZKOWSKA, Z. (Kraków, Poland)
Deglaciation of the Etançons Valley (Massif Écrins, French Alps) since the Little Ice Age
- 16.15 – 16.45 *Discussion on Topics of Afternoon Session*
- 16.45 – 17.15 *Final Discussion*
- 17.30 – 19.00 **Plenary Session of the CBGC**

Note: The paper/poster session time-table can be slightly modified. The final version will be available at registration.

Thursday September 11, 2003

Excursion from Bratislava to Banská Štiavnica (8.00 – 19.00)

Stop No. 1. Bratislava – Sandberg (Malé Karpaty Mts.)

The Quaternary tectonics and its consequences.

Stop No. 2. Gabčíkovo – Žitný ostrov (Danube Lowland)

Young tectonics and fluvial landforms.

Stop No. 3. Gbelce – Žitava River (Danube Lowland)

The Quaternary changes of the river network.

Stop No. 4. Nová Baňa – Pútikov vršok (Štiavnické vrchy Mts.)

The youngest volcanism in the West Carpathians.

Stop No. 5. Banská Štiavnica – Kalvária (Štiavnické vrchy Mts.)

Transformation of the Neogene stratovolcano.

Overnight in Banská Štiavnica.

Friday September 12, 2003

Excursion from Banská Štiavnica to Bratislava (8.00 – 18.00)

Stop No. 1. Kremnické Bane (Kremnické vrchy Mts.)

Neogene planation surfaces.

Stop No. 2. Vyšehrad Saddle (Žiar Mts.)

Example of intra-mountain basin evolution.

Stop No. 3. Koš (Upper Nitra Basin)

Anthropic transformation of basin landforms.

Stop No. 4. Bojničky (Nitra Hill Land)

Geomorphology of the contact zone of the Danube Lowland and neighbouring mountains.
