

Mineralogical Society of Slovakia and Slovak Geological Society

invite you to scientific talks of two recipients of the Bohuslav Cambel medal awarded by the Earth Science Institute of the Slovak Academy of Sciences in 2020 and 2021

Miroslav Bielik (Comenius University): Geophysical study of the Carpathian-Pannonian lithosphere

- Interpretation of the Carpathian's gravity low and Pannonian gravity high
- 2D and 3D integrated interpretation of the lithosphere
- Is there underplating (Mantle Plume) under Nógrad-Gömör volcanic field ?

Csaba Szabo (Eötvös Loránd University): Petrographic and geochemical characteristics of lithospheric mantle beneath the Carpathian-Pannonian Region

- significance of upper mantle xenoliths in the study area
- evolution of the studied lithospheric mantle
- compiled geochemical and geophysical investigation in the Nógrád-Gömör Volcanic Field

Venue: **Faculty of Natural Sciences at the Comenius University**, Ilkovičova 6, Bratislava
Date and time: **November 22, 2021 at 14,00**
Room: **B1 – 322 (CPS+)**
